PROFESSIONAL SUMMARY

Backend Software Engineer experienced in architecting REST APIs, relational database design, and cloud hosting infrastructure. Currently working full-time as a **PHP Developer at AI Digital Innovation**, maintaining corporate web systems and managing live server environments. Completed a 1-year **NATS Software Apprenticeship at Encardio-Rite Pvt. Ltd.** developing production REST APIs in Laravel and Docker. Holds a formal **DCSC certification in Web Application Penetration Testing** with strong focus on code reliability, database optimization, and application security.

TECHNICAL SKILLS

Backend & Languages:	PHP (OOP), Laravel, RESTful API Design, Swagger / OpenAPI, Python & FastAPI (Exposure)
Databases & ORM:	MySQL, PostgreSQL, Eloquent ORM, Database Query Optimization, Schema Architecture
Tools & Infrastructure:	Docker, Hostinger Cloud Hosting, Server Hardening & Administration, Git & GitHub, Postman, Azure DevOps
Security & Frontend:	Web App Penetration Testing (DCSC), Keycloak, RBAC, React, Tailwind CSS, Blade

WORK EXPERIENCE

PHP Developer — AI Digital Innovation

`Aug 2026 - Present`

- Architect, develop, and maintain custom PHP web applications and client systems from daily planning through deployment.
- Perform relational database management and query optimization in MySQL to ensure low latency and high availability.
- Administer cloud hosting infrastructure on Hostinger, configuring DNS records, domain deployments, and production server upkeep.
- Lead incident response and rapid remediation efforts to address unauthorized file modifications and ensure strict core file integrity.
- Implement proactive server hardening and access control measures to protect business logic and mitigate vulnerabilities.

Software Apprentice — Backend Developer — Encardio-Rite Pvt. Ltd.

`Jan 2025 - Jan 2026`

- Contributed to backend development of the **Sensor Data Calibration & Management System** in the Edge of Technology (EOT) division from initial API design to deployment.
- Automated sensor calculation workflows, contributing to ~50% improvement in calibration data consistency and accuracy.
- Built and tested structured RESTful APIs using Laravel, PHP, and Eloquent ORM with MySQL within a Dockerized development environment.
- Developed REST API endpoints with filtering and pagination for the **Internal Financial Dashboard**, reducing manual reporting effort by ~40%.
- Integrated Keycloak-based authentication and utilized Azure DevOps for sprint planning and agile team collaboration.

Full Stack Developer Intern — Zidio Development

`Aug 2024 - Oct 2024`

- Developed and integrated REST API endpoints with frontend components in a collaborative agile environment.
- Contributed to systematic bug fixing, endpoint validation, and cross-browser responsiveness.

KEY PROJECTS

URL Shortener Service — Laravel 12, PHP 8.2+, MySQL, Breeze, RBAC GitHub

- Engineered a multi-tenant URL shortening platform with Role-Based Access Control (SuperAdmin, Admin, Member) and collision-resistant short-code generation.
- Built scoped dashboards allowing admins to manage corporate links and members to track analytics.

Employee Management System — Laravel, MySQL, Blade, Tailwind CSS GitHub

- Implemented full employee lifecycle management with authentication, RBAC middleware, document file uploads, and server-side validation.

ExploreHub — Web Data Discovery Platform — Cloud Infrastructure, Docker, PostgreSQL, Redis, Railway, Vercel Live Demo • GitHub

- Configured and deployed a distributed application with frontend on Vercel, backend service on Railway, and cloud-hosted PostgreSQL with Redis caching.
- Integrated automated web scraping workflows using Playwright and containerized service environments in Docker.

CERTIFICATIONS & TRAINING

DCSC — Web Application Penetration Testing — TDO Tech Education (ISO 9001:2015) ID: DCSC-AVRVV0326 | Aug 2026

NATS Software Apprentice Certificate — Ministry of Education / Encardio-Rite Pvt. Ltd. Apprentice ID: Encardio-EOT | Jan 2026

Web Development & Career Preparation — Internshala Trainings Certified Graduate

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering 2020 – 2024

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow | **CGPA: 7.66 / 10**

Core Coursework: Data Structures & Algorithms, DBMS, Object-Oriented Programming (OOP), Computer Networks, Operating Systems.
